THE LINK & THE POINT

Charity No. 1198457

Welcome to the latest edition of Tadley & District Community Association guide to What's On this Autumn.

The Link has undergone some refurbishment over the past year. The original glass canopy at the front has been removed and we now have a new entrance lobby. Other interior improvements include new fire doors and flooring in the hallway. Outside the roof tiles have been replaced and a new layer of insulation added. Much of this work was instigated due to the many leaks the building suffered from when it rained.

Other works have included the refurbishment of the two main hall floors. Installation of new blackout blind in Hall 'A' along with new audio visual equipment and cinema screen.

Funding received from a Covid Support Grant has also allowed us to replace all the chairs and the addition of circular conference /banqueting tables.

We have also recently installed CCTV parking cameras in our car parks in a final attempt to manage the parking for the benefit of our Users.

We hope you'll find the information in this booklet helpful and hopefully you'll find something of interest and visit us soon.
